

WORKING AND LIVING IN JAMAICA

FLEXIBLE | REWARDING | SUPPORTIVE

Over the past years, the UNOPS St. Lucia Project Center Office has consistently met its project targets and improved the lives of the people in the Caribbean by:

- Responding to project management, procurement and infrastructure needs
- Providing cost efficient solutions to Caribbean countries
- Ensuring robust and dynamic risk management & quality assurance strategies
- Providing solid administration and efficient execution of projects

The UNOPS St. Lucia Project Center offers an exceptional and rewarding working experience with a cohesive team that strongly advocates knowledge sharing. The International Construction Supervisor stands to gain immense experience through this work opportunity which will aid in career progression.

In Jamaica, UNOPS will be undertaking the refurbishment of the Cornwall Regional Hospital in Montego Bay. Upon completion, this state of the art hospital will deliver health services to approximately 600,000 persons with a 450 bed capacity.

The island of Jamaica provides numerous opportunities for more upcoming projects as UNOPS has already strengthened its presence on the island having completed the Riverton Road Project in 2016 and has also developed a strong partnership with the Government of Jamaica.

LIVING IN JAMAICA

Jamaica is a beautiful island country in the Caribbean with a booming tourism sector and breath-taking views island wide. It affords a relaxing atmosphere and a range of exciting adventures to pursue.

Jamaica is the largest English speaking island in the Caribbean Sea with a population of approximately 2.8 million. The capital city of Kingston is home to approximately 1 million residents and the city of Montego Bay is referred to as the 'Second City' with a major cruise ship port and provides the pleasure of various outdoor activities.

Unlike most other Caribbean countries, Jamaicans eat very large breakfasts, tiny lunches and huge dinners. The cuisine consists mainly of foods that are indigenous to the country including bananas, seafood, coffee, goat and jerk. With 4,243.6m² of island to explore, Jamaica is an island of endless possibilities.
